

Teaching and Learning Developmental Screening Tool

Program/Provider: _____

Date: _____

Required for Level 2:

Upload a blank developmental screening tool used for each age group served into online IQ4K system.

List the name of the assessment tool used for each age group served. If your program doesn't serve an age group, just list N/A.

Infant _____

Toddler _____

Preschool _____

School Age _____

Describe how you're using these assessment tools to align your activities and curriculum to support all children's learning.

Options of things you may want to include:

- Which approved developmental screening tool do you use?
- The tool will be utilized for all children in care within 60 days of enrollment.
- The tool will be utilized for all children in care annually or your set frequency amount.
- The tool will be used to identify children's milestone achievements and help identify if additional evaluation and/or intervention strategies are needed.
