

Family and Community Partnerships *Culturally Sensitive Practices and Procedures*

Program/Provider: _____

Date: _____

Required for Level 3

Describe in detail your process for promoting culturally sensitive practices in your program.

Programs could demonstrate this by describing how they learn about a family's cultures, values and beliefs, also how they use that information to support families in their care. This is not related to materials in the environment.

Describe your process:

Provide examples of how you supported families with the information they provided:
