Iowa CACFP Training Verification in i-PoWeR

The Iowa Department of Education, Bureau of Nutrition and Health Services (Bureau) provides Child and Adult Care Food Program (CACFP) related training through Iowa Learning Online Professional Development (ILOPD). A list of participants in the modules listed below is provided to the Bureau after the first of each month. Staff in the Bureau verify completion of the modules in i-PoWeR after the list is received.

Tips to help facilitate verification of attendance:

1. Participants must currently enroll in the training modules through both [i-PoWeR](#) and [ILOPD](#) to help ensure training is verified. It is best to enroll in both systems at the same time so attendance is verified in a timely manner. This also helps reduce the chance that verification is missed.
2. Bureau of Nutrition and Health Services staff do not have access to individual profiles, so we are unable to verify certificates that are uploaded to i-PoWeR.
3. First and Last Names should match in both ILOPD and i-PoWeR. Profiles can be updated in ILOPD by logging in and clicking on “Profile” in the upper right-hand corner.
4. Please plan accordingly and allow plenty of time (generally up to 60 days) for verification to be entered in i-PoWeR. This time frame includes verifications of recent training for Iowa Quality for Kids (IQ4K) applications.

The following ILOPD modules can be verified using the monthly attendance lists.
